### MODULYS XS "Forever Young" concept

- It eliminates issues surrounding the criticality of the UPS system's end-of-life.
- It is based on:
  - a modular, electronics-free UPS cabinet - thus failure-free and with no ageing,
  - plug-in components - quick and easy to replace avoiding ageing issues.
- It allows the life-cycle of the MODULYS XS to be extended via periodic hot-swap replacement of power modules and other electronic parts before they start to age and wear out.
- Each renewal:
  - ensures a new start for the MODULYS XS system's life-cycle,
  - avoids all the problems and risks associated with substituting the UPS,
  - provides an always up-to-date system, as the new parts will incorporate the latest technology.
